I am a professional resource dedicated to work hard for development of applications. I spend time on studying the problems and then developing them fixing them efficiently. Data Science is used widely in every field of life, be it Medical, AI, Civil works etc. We make sure you get some sort of meaning from data which helps your business or work. Technologies we work on: C# , Python, Numpy, Pandas, Matplotlib, Seaborn, Scipy, ScikitLearn, Tensorflow, Keras, SQL, PowerBi, .NET , ASP Dot NET ,
